## Experience

### 02/2022 - 06/2023 Software Developer Consultant, Houston Inc.

I developed and built various user-focused websites and applications where I gained analytical problem solving skills with calm and focused demeanor.

- Planned, developed and debugged web applications with complete accuracy

- Documented 100% of technical specifications and dependencies of applications

**Technologies:** Next.js, Contentful, Nest.js, TimescaleDB

### 08/2019 - 10/2021 Full Stack Developer, Adaptek OY

Source code development with Full-stack architecture to check and verify daily statuses of the whole street lights in Finland. In this position, I worked in source code development and I was responsible for designing, developing, and implementing software applications that satisfy complex and core business requirements. Modifying existing software to correct errors, upgrade interfaces, and improve performance.

**Technologies:** Go, Postgresql, Vue

### 10/2017 - 01/2019 Frontend Web Developer, YabanTV

Frontend focused full-stack development remotely from Finland. The duties in this position varied from assisting in the planning, designing, documentation, implementation and managing of the company's website development

**Technologies:** .NET, MSSql, React

### 07/2015 - 07/2016 Senior Technical/Software Support Advisor, Xerox

Solving customer-specific problems remotely if/when there are any needs from the customers in technical sizes such as systematical errors, software-related not-working questions and/or nontechnical size such as questions anything related to Xerox.
